

Amend Data Request

! INFO

Only the data request owner can make amendments to their data request.

Edit Data Request

You can amend your data request when the request is at **Pending Verification** status.

Edit your data request by selecting the edit tool.

The screenshot displays the 'Amend Data Request' interface. At the top, there's a header with the Singapore Government Agency Website logo and a 'How to identify' link. Below this, the 'Account details' section shows the user's email (jason_ang@tech.gov.sg) and role (Tenant Admin). A 'Generate API tokens' button is visible in the top right. The main content area is divided into two tabs: 'Dataset' (selected) and 'Data Product'. A search bar is present above a table of data requests. The table has columns for ID, Approval status, Date requested, and Datasets. The first row, with ID 'GOVTECH-2025-04-012', is highlighted, and its 'Edit' icon (pencil) is circled in red. The table also includes pagination controls at the bottom, showing '1 to 5 of 5 rows' and 'Rows per page: 10'.
