

Changelogs

! INFO

- Only Tenant Admins and Source Agency Admins can create a changelog.
- Only Tenant Admins can approve and fulfill a changelog.

A changelog represents a change in the dataset's information which could be in the form of a change in data schema, usage guidelines etc. This is an overview of the changelog process.

View Changelog

To view the changelog, navigate to [DataHive](#) for the list of Datasets. Click on the dataset to view the list of active changelog for the datasets.

Municipal Feedback

MND

Add to cart Get dataset

Municipal feedback received by the following government agencies: MSQ, BCA, HDB, LTA, NEA, NParks, PA, PUB, SPF, SLA, URA

Data volume
~0 rows every 6 months

Update frequency
Every 6 Months

Coverage range
Jan 2016 - Feb 2021

Classification (Masked)
RCST: OFFICIAL (CLOSED)
ISF: SENSITIVE HIGH

Classification (Raw)
RCST: OFFICIAL (CLOSED)
ISF: SENSITIVE HIGH

Usage guidelines [Usage guideline documents](#)

Only municipal feedback data received and owned by government agencies are shared. Cases that are updated within the last month would be refreshed by the 3rd of each month; any cases that are reclassified as non-municipal would be deleted.

Nam sit amet turpis mattis, maximus nisi id, tempus risus. Proin nec lorem in leo accumsan consequat.

After approving, the changelog request will be pending fulfillment. In this case, arrange a time to deploy the changes to the backend, and once it is done, clicking on “Mark as Fulfilled” will send a mass email to users that are active subscribers to the dataset informing them that there is a change.

In the event when there are technical issues, you can choose to click on “Unable to fulfill”, but a reason would be required.
