

# Onboard Dataset

## ! INFO

You need to be assigned as **Tenant Manager** in order to onboard datasets. Please reach out to your **CDO Team** to obtain the necessary role assignment.

To start onboarding a new dataset, click on the "Onboard Dataset" button on the Dataset Management page.

The screenshot shows the 'Dataset Management' interface. On the left is a sidebar with navigation links: Home, Marketplace, Resources, New Changelog, Approval, Visualisation, **Datasets** (selected), Manage datasets, Dataset status, Users, and Requests. The main content area has three filter dropdowns: 'All tenants', 'All admins', and 'All statuses'. Below these is a search bar. There are three tabs: 'All datasets' (selected), 'Onboarded by you', and 'Assigned to you'. A red box highlights the 'Onboard dataset' button in the top right corner. Below the tabs is a table with the following data:

| Dataset ▾                          | Tenant ▾ | Dataset Admin(s) ▾                                           | Published Date ▾ | Status ▾    |

| <a href="#">Water Consumption</a>  | TCS      | test@tech.gov.sg, admin@tech.gov.sg                          | 12 Jan 2024      | Published   |
| <a href="#">Town Gas Sales</a>     | TCG      | test@tech.gov.sg, admin@tech.gov.sg, koh_jun_wei@tech.gov.sg | -                | Unpublished |

You will be redirected to a form to fill in the basic information related to the dataset.

More crucially, you will need to assign Tenant Admins to manage the dataset (e.g., to fill in the dataset's metadata).
