

Re-assign Internal Approver

As a data request owner, you can request to re-assign the Internal Approver (IA) for your data request.

The table below shows the various Data Request statuses, along with whether the IA can be re-assigned at each stage, and whether the new IA's approval is required for the IA re-assignment.

INFO

If the IA re-assignment requires approval from the new IA, an IA re-assignment request will be created.

The new IA will receive an email notification to log into DataHive to accept or reject the IA re-assignment request.

Data Request Status	Able to re-assign IA?	New IA's approval required?
Pending Verification		
Pending Internal Approval		
Pending Datafields Review		
Pending Data Provision		
Request Fulfilled		
Pending Scopes Change Approval		
Request Withdrawn		
Request Expired		
Expired Without Fulfilment		

Data Request Status	Able to re-assign IA?	New IA's approval required?
Rejected		
Revoked		

 CAUTION

If the IA re-assignment requires approval from the new IA, the new IA will have to accept the IA re-assignment request before the change takes effect.

Until accepted, the original IA remains responsible for your Data Request.

Re-assign Data Request to Another Internal Approver

You can re-assign your Data Request's IA from either the Data Requests page or the individual Data Request's page.

A. From the Data Requests Page

1. Navigate to the [Data Requests](#) page.
2. Click the ellipsis menu (:) on the right of your desired data request & select **Re-assign Internal Approver**.

Re-assign Internal Approver

Data Request Details

Dataset(s) Requested | Team Access | Others

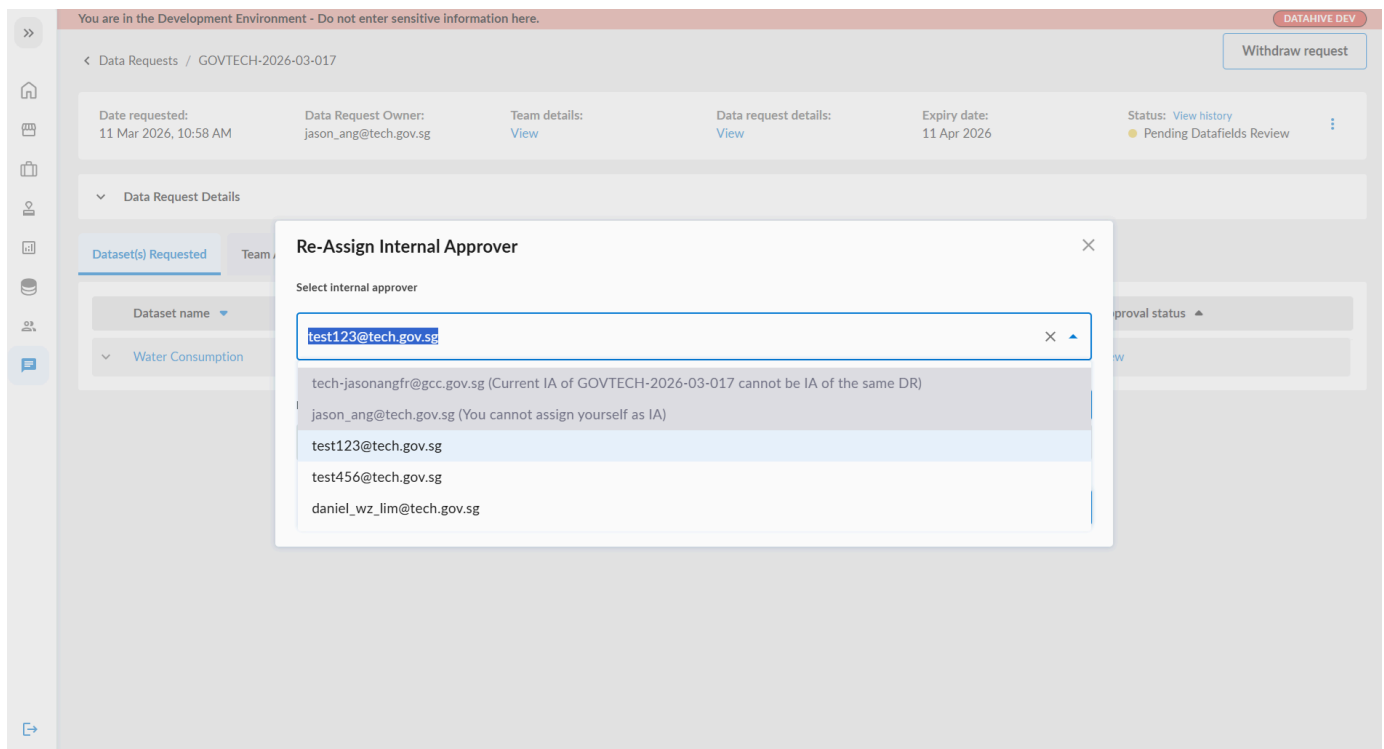

Dataset name	Agency	From date	To date	Approval status
Water Consumption	PUB	Jan 2015	Dec 2025	View

Upon clicking **Re-assign Internal Approver**, a dialog will appear, you can:

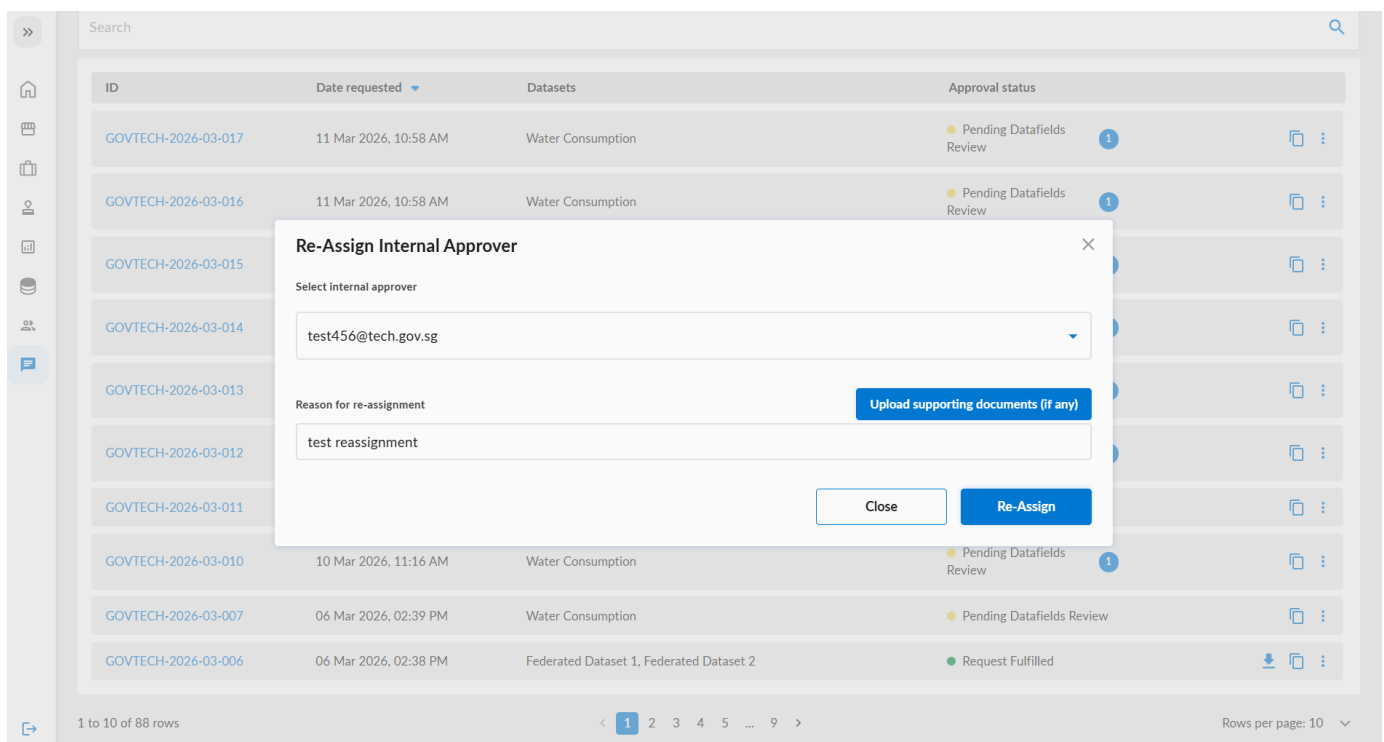

1. Select the new Internal Approver from the dropdown.

! INFO

The list of Internal Approvers is managed by your agency's CDO team. If you do not see your desired IA in the list, please contact your CDO Team to add them.

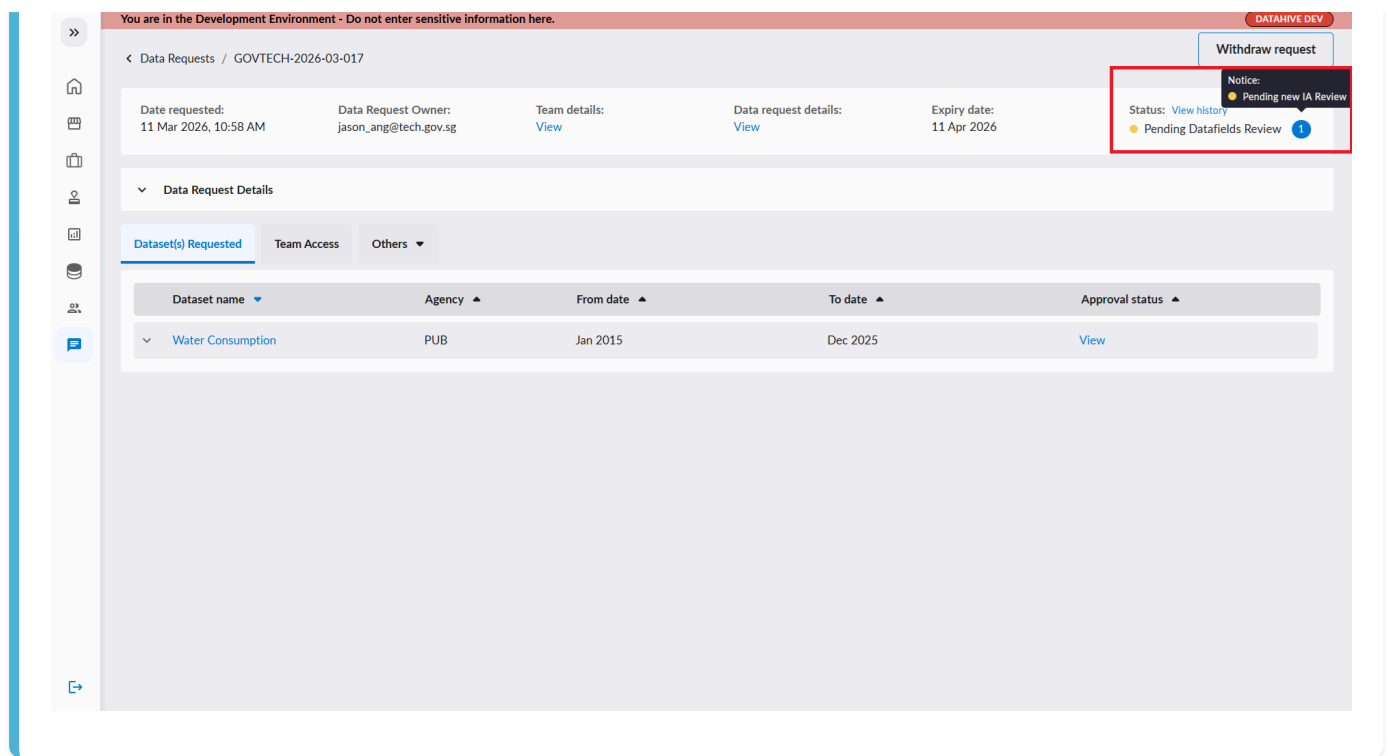

2. Provide a reason for the re-assignment & click **Re-Assign** to submit the request.

! INFO

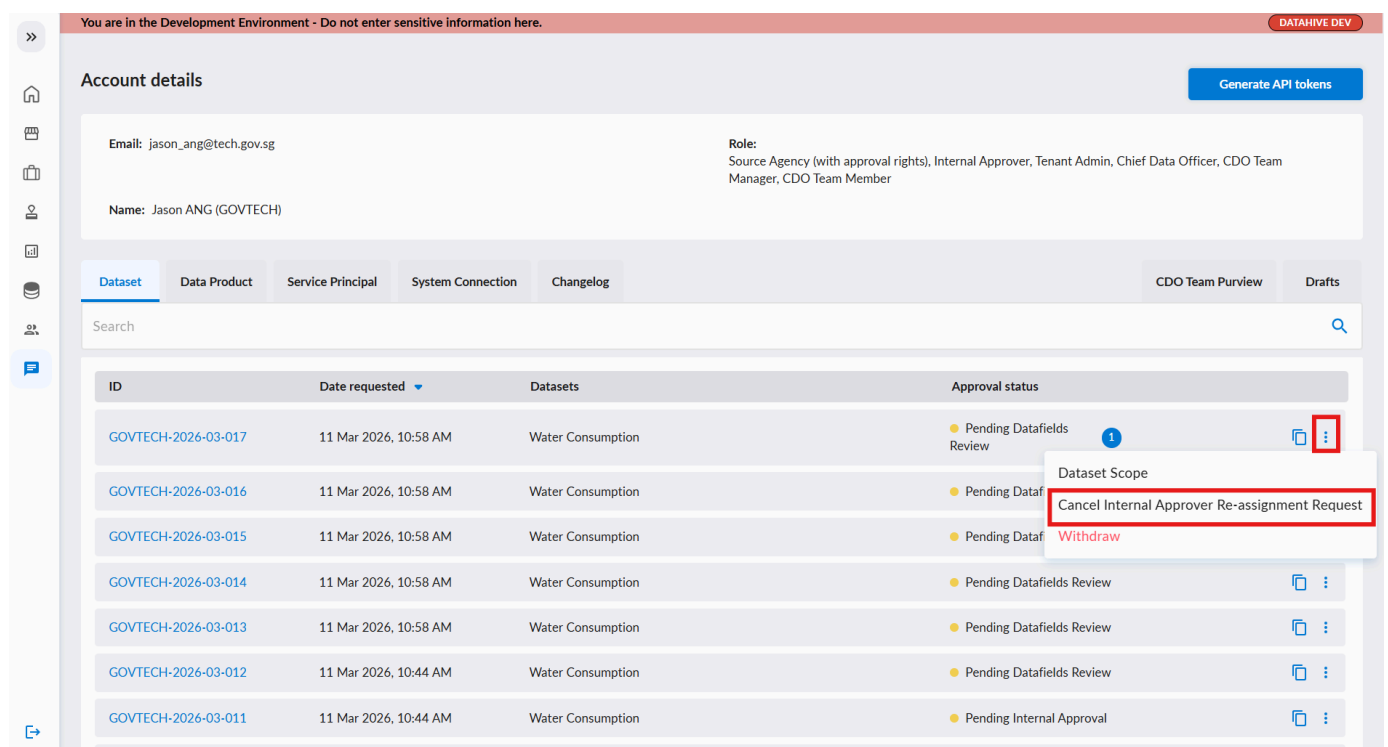

When your data request is pending IA re-assignment, a substatus indicator (number badge) will appear next to the request status. Hover over the indicator to see the substatus details.

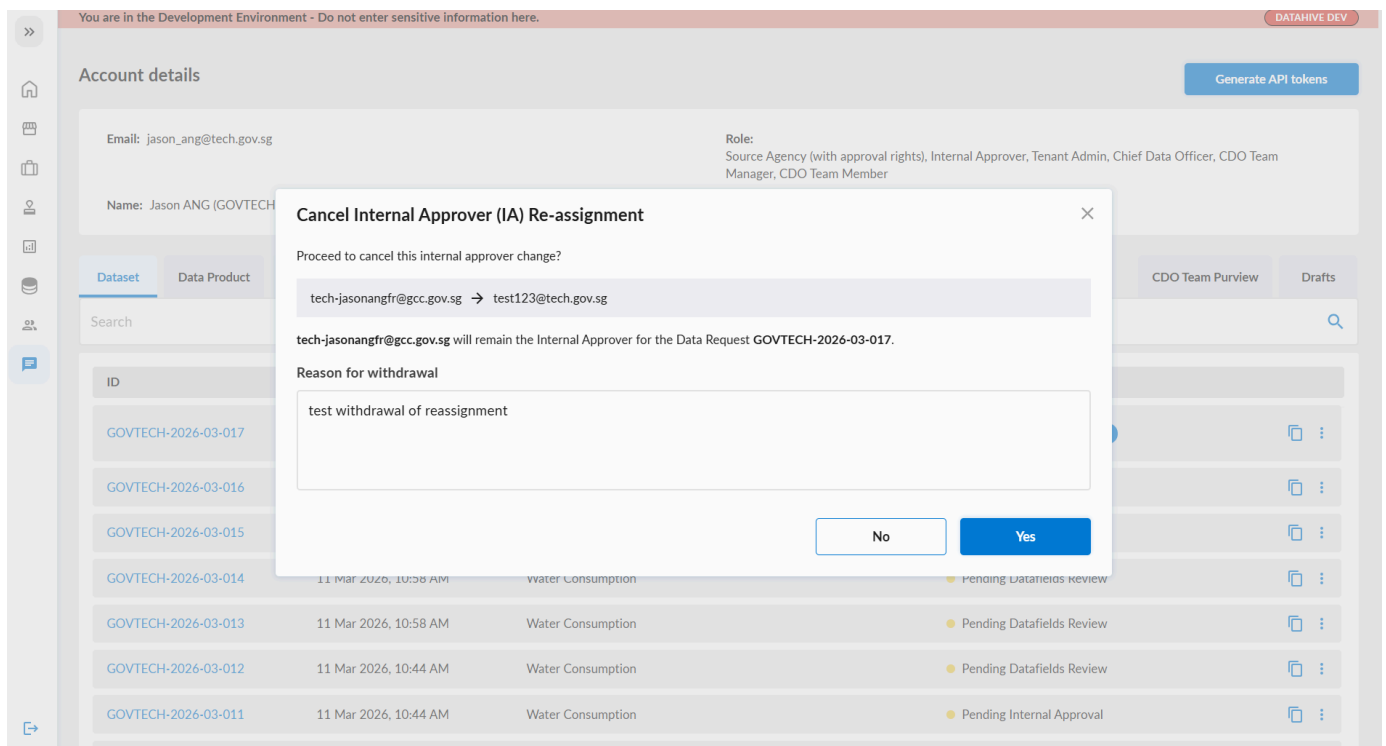

Cancel IA Re-assignment Request

As a data request owner, you can cancel a pending IA re-assignment request that was raised by you:

1. Navigate to your data request.
2. Click the ellipsis menu (:) on the far right & select **Cancel Internal Approver Re-assignment Request**.

3. A confirmation dialog will appear. Provide a reason for the cancellation and click **Confirm**.

! INFO

- For Data Requests that are 'Pending IA Re-assignment', a new IA re-assignment cannot be initiated, until the pending IA re-assignment is accepted / rejected / withdrawn.

View IA Re-assignment History

You can view the history of Internal Approver changes for your data request on the data request detail page.

1. Navigate to your data request details page.
2. Click on the Re-Assignment History button on the right.
3. A popup with the history of IA re-assignments will appear. Click on the accordion (v) to expand the details of each IA re-assignment request.
