

Tenant Admin Guide

Tenant Admins are responsible for creating and updating data issues.

This should be done in a manner that is factually consistent with the details of the data issue and the correspondence with SSOTs.

Create New Data Issue

By clicking on `New Data Issue` button on the top right of the screen, you will open up a side pane to input the details for the `Main Status`.

New Data Issue

×

Dataset

Bus Locations

Agency

LTA

Status category

Missing Data

Status summary

Data ingestion failed, data up till 26 Jul 2024 is unaffected

Affected date range

26/07/2024 - 27/07/2024

Daily affected proportion (%)

100

Visibility

Tenant Manager or Admin

Cancel

Submit

You can fill in the necessary details in the side pane accordingly, and click on 'Submit' when the details are filled in. Fields that might be unfamiliar to new users are elaborated below.

Affected Data

To populate the **Affected Date Range** and **Daily Affected Proportion** fields, use the following guidelines:

Field	Guideline
Affected Date Range	What are the dates for which the dataset is affected? Note that the start and end date can be the same.

Field	Guideline
Daily Affected Proportion	Across all date(s) of the Affected Date Range , what is the average proportion of data for each day that is affected by the stated data issue?

 INFO

In the situations where the proportion of data affected varies across days, simply report the average on the **Main Status**, as this is for data quality metric tracking. Separately, feel free to include the detailed breakdown as a **Tenant Internal Update**.

Visibility

You can select the visibility within the form, which affects which users will be able to view the data status you are creating.

Value	Who can view?
Tenant Manager or Admin	Only TA/TMs assigned to the dataset
SSOT only	Only SSOTs/TA/TMs assigned to the dataset
All Users	All Users

Edit / Delete Main Data Status

Status ID / Datas	Agency	Latest status	Status category	Status summary	Affected data	IC	Visibility	Issue raised date	
D7-0016 Bus Locations	LTA	Detected	Missing Data	Data ingestion failed, data up till 26 Jul 2024 is unaffected	Date: 26 Jul 2024 - 27 Jul 2024 Daily Affected Proportion: 100%	jason_ang_from.tp@te ch.gov.sg	Tenant Manager or Admin	27 Jul 2024 Note: Issue Detected but not Raised to SSOT	 
D7-0015 Bus Locations	LTA	Verified By SSOT	Incorrect Data Format	Invalid datetime format	Date: 25 Jul 2024 - 26 Jul 2024 Daily Affected Proportion: 100%	jason_ang_from.tp@te ch.gov.sg	All Users	26 Jul 2024 No. of days since raised: 1	 

Edit

Delete

To edit or delete an existing Main Status, you can use the triple dots to reveal the **Edit** and **Delete** buttons.

An example of the editing process is shown below.

Status ID / Dataset	Agency	Latest status	Status category	Status summary	Affected data	IC	Visibility	Issue raised date
D7-0015 Bus Locations	LTA	Verified By SSOT	Incorrect Data Format	Invalid datetime format	23/150	Start Date: 25/07/2024 End Date: 26/07/2024 Daily Affected Proportion (%): 100	jason_ang_fr om.tp@tech. gov.sg All Users	26 Jul 2024 No. of days since raised: 2

An example of the deletion confirmation screen is shown below.

Status ID / Datas	Agency	Latest status	Status category	Status summary	Affected data	IC	Visibility	Issue raised date
D7-0016 Bus Locations	LTA	Detected					Tenant Manager or Admin	27 Jul 2024 Note: Issue Detected but not Raised to SSOT
D7-0015 Bus Locations	LTA	Verified By SSOT	Incorrect Data Format	Invalid datetime format	26 Jul 2024 Daily Affected Proportion: 100%	jason_ang_ from.tp@te ch.gov.sg	All Users	26 Jul 2024 No. of days since raised: 1

 **CAUTION**

When you **delete** a **Main Status**, you will also delete ALL **Sub Status(es)** that belong to it.

Add Sub Data Status

You can add new sub data status by clicking on the 'Update status' button on at the bottom of the expanded data status.

Status ID / Datas	Agency	Latest status	Status category	Status summary	Affected data	IC	Visibility	Issue raised date										
D7-0016 Bus Locations	LTA	Detected	Missing Data	Data ingestion failed, data up till 26 Jul 2024 is unaffected	Date: 26 Jul 2024 - 27 Jul 2024 Daily Affected Proportion: 100%	jason_ang_ from.tp@te ch.gov.sg	Tenant Manager or Admin	27 Jul 2024 Note: Issue Detected but not Raised to SSOT										
<table><thead><tr><th>Sub Status</th><th>Date & Time</th><th>Additional Details</th><th>Visibility</th><th>Internal Details</th></tr></thead><tbody><tr><td>Detected</td><td>27 Jul 2024, 09:03 PM</td><td><blank></td><td>Tenant Manager or Admin</td><td><blank></td></tr></tbody></table>									Sub Status	Date & Time	Additional Details	Visibility	Internal Details	Detected	27 Jul 2024, 09:03 PM	<blank>	Tenant Manager or Admin	<blank>
Sub Status	Date & Time	Additional Details	Visibility	Internal Details														
Detected	27 Jul 2024, 09:03 PM	<blank>	Tenant Manager or Admin	<blank>														
Raised To SSOT 27/07/2024 09:05 PM Issue made known to SSOT Tenant Manager or Admin Ingestion failure details can be found in logs 24/15046/150 Update Status																		

The sub-status can be created by clicking on the blue 'tick' icon on the right.

! INFO

Do note that 'Internal Details' can only be viewed by TA/TMs assigned to the dataset, whilst 'Additional Details' can be viewed by anybody with permissions to view the data status.

Edit / Delete Sub Data Status

Editing or deleting a sub-status works just like a main status, and the various actions can similarly be triggered with the triple dots on the right of each sub status.

An example of editing a sub status is shown below.

Sub Status ▾	Date & Time ▾	Additional Details ▾	Visibility ▾	Internal Details ▾	
Detected	27 Jul 2024, 09:03 PM	<blank>	Tenant Manager or Admin	<blank>	⋮
Raised To SSOT	27 Jul 2024, 09:05 PM	Issue made known to SSOT	Tenant Manager or Admin	Ingestion failure details can be found in logs	⋮
Verified By SSOT ▾	27/07/2024 09:06 PM 📅	SSOT acknowledged issue 23/150	Tenant Manager or Admin ▾ Tenant Manager or Admin SSOT only All Users	Internal Details 0/150	⊗ ✓
Resolved By SSOT	27 Jul 2024, 09:07 PM	Fault in data ingestion resolved		Missing batch of data will be ingested in next hour	⋮
Resolution Confirmed	27 Jul 2024, 09:08 PM	All data is up to date and accurate	Tenant Manager or Admin		⋮
Update Status					

Tenant Internal Update

To update with a data issue with details that are only meant to be viewed internally by TA/TMs assigned to the dataset, you can **Update Status** with a **Tenant Internal Update** type:

Tenant Internal Update	26 Jul 2024, 04:39 PM	Processed the new file without issue	Tenant Manager or Admin	⋮
------------------------	-----------------------	--------------------------------------	-------------------------	---

Note that the visibility will be enforced to be **Tenant Manager or Admin** by default.
