

Track Data Request Status

Steps to Track Data Request Status

Upon submission of your data request, you can track the status here:

1. Navigate to the Request tab, and select the Data Request ID that you're keen to track.

The screenshot shows the 'Requests' tab selected in the left sidebar. The main content area displays 'Account details' and a table of data requests. The 'Requests' tab is highlighted with a red box. The table has columns for ID, Approval status, Date requested, and Datasets. The first row shows a 'Request Expired' status for ID MDDI-2024-10-002. The second row shows a 'Request Fulfilled' status for ID MDDI-2024-10-001, which is highlighted with a red box.

ID	Approval status	Date requested	Datasets
MDDI-2024-10-002	Request Expired	15 Oct 2024, 11:35 AM	Basic firm information for registered firms, Application and Approval of Grants on Business Grants Portal (BGP)
MDDI-2024-10-001	Request Fulfilled	15 Oct 2024, 11:33 AM	EPS Carpark, Non-EPS Carpark

2. In the Data Request page, you will be able to check on the Status of the DR by clicking on

"View"

Data Request Stages

Here are the various stages a data request can be in **before approval** is granted:

Stage	Description
Verify Data Request	DR form is pending verification by tenant admins and edits may be requested. A well written DR form will cut down on the time needed in this stage. Access the guide here

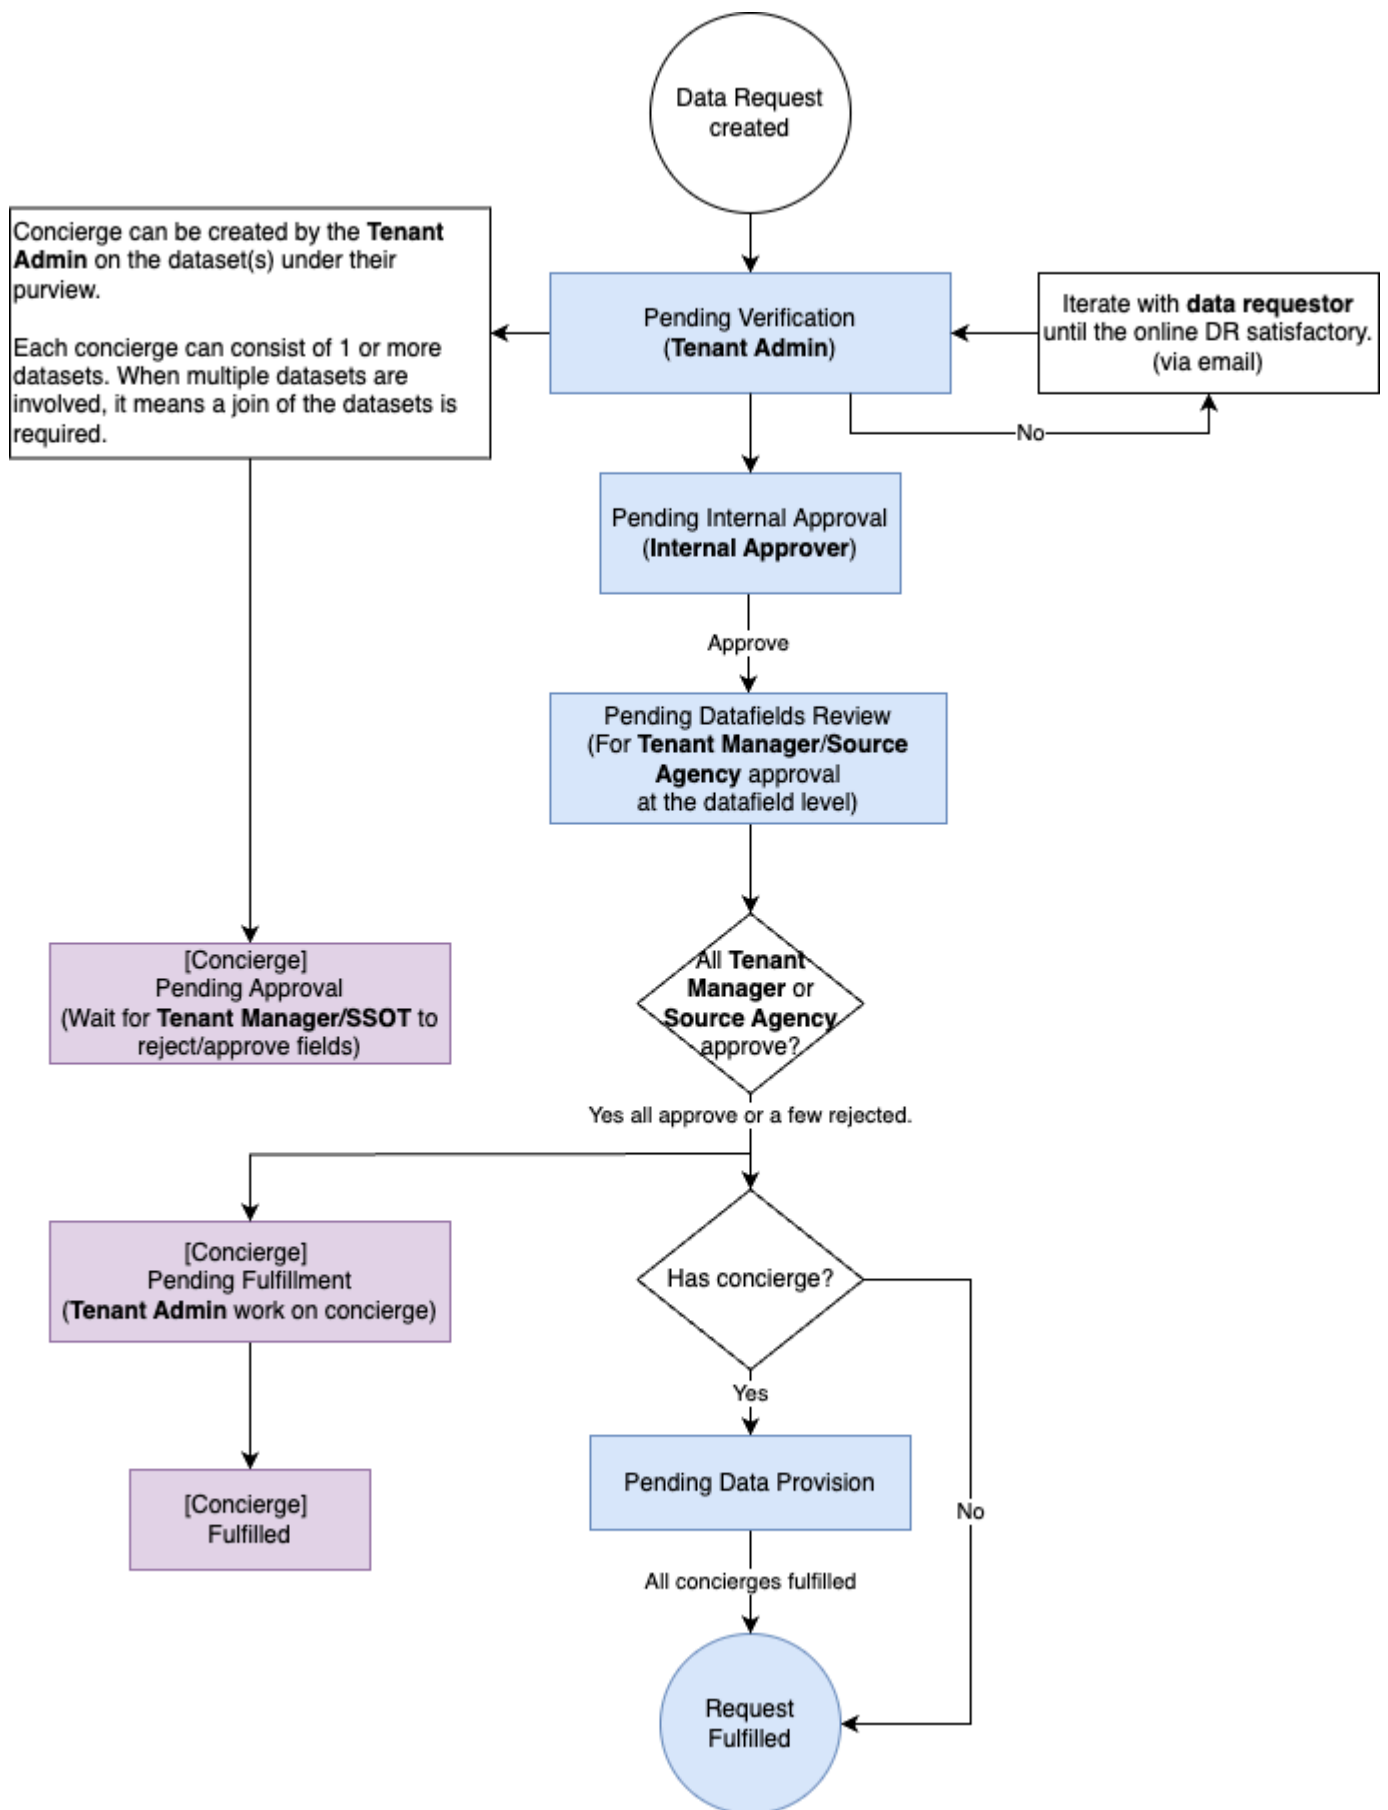

Stage	Description
Approve/Reject Data Request	DR is pending your Internal Approver's (IA) approval on the DataHive platform.
Approve/Reject Fast-Tracked and Non Fast-Tracked Fields	Datafields in the DR are awaiting approval from one or more Tenant Managers and/or SSOT admins. Approval from an SSOT admin is mandatory for datafields that are not fast-tracked.
Pending Data Provision	DR has been approved and is now awaiting either the system or Tenant Admin(s) to provision the DR.

Here are the various stages a data request can be in **after approval and fulfillment**. You can also choose to request for a change in scopes after fulfillment

Stage	Description
Request Fulfilled	DR approved.
Rejected	DR not approved.
Revoked	Request was fulfilled, but has now been revoked.
Request Withdrawn	Request is withdrawn by the DR owner.
Request Expired	Ad-hoc DR is past the end-date and no longer valid.
Expired Without Fulfillment	Ad-hoc DR was not approved and is now past the end-date.
Pending Scopes Change Approval	DR is pending scopes change approval by Tenant Admins.

Detailed Overview of Data Request Workflow

The data request approval workflow is as follows:

To view all the data requests made, proceed to the [Approval](#) tab.
